

IN THE NAME GOD, MOST GRACIOUS, MOST MERCIFUL

Dear brothers and sisters,

As Salam e Alaikum!

May 19, 1990 was a test for all of us. We were blessed during the 109 days between the Messenger of God's martyrdom on January 31, 1990 and May 19, 1990 with additional components of the miracle of the Quran. Some of us, including myself, took those signs to incorrectly proclaim May 19, 1990 as the day of retribution as prophesied in Dr Khalifa's last newsletter and Sura 44.

We cannot however diminish the importance of May 19, 1990 as a historical day for the following reasons.

- a) All patterns of the miracle of the Quran are repeated between verses 5:19 and 10:24.
- b) 109 - a prime number, has certain unique properties in the Quran:
 - i) Number 109 is in the Quran precisely 19 times (18 times as a verse number and once as a sura number).
 - ii) The total of 18 sura numbers with verse 109 is 247.
 - iii) There are 57 verses in the Quran in which the sura number and verse number add up to 109. For example 74:35, 27:82 (74+35=109, 27+82=109).
 - iv) May 19, 1990 is the 109th day from January 31, 1990.

Here are other reasons for the historical importance for May 19, 1990.

Solar calendar	5-19-1990	$5+19+1990 = 2014$	(19x106)
Lunar calendar	10-24-1410	$10+24+1410 = 1444$	(19x19x4)

There are a few days in 1990 prior to May 19, 1990 for which the same pattern exists between the solar and lunar dates, which is; the total for the month, day and year is divisible by 19.

However, the FIRST day after May 19, 1990 with the same pattern is January 22, 1991. There are exactly 247 (19x13) days between these two dates. January 22, 1991 is the ONLY day in all of 1991 to have the same pattern. Praise be to God.

Solar calendar	1-22-1991	$1+22+1991 = 2014$	(19x106)
Lunar calendar	7-7-1411	$7+7+1411 = 1425$	(19x75)

The importance of January 22, 1991 as a historical day as well as a link to May 19, 1990 and January 31, 1990 can be appreciated by taking a look at the newspapers of January 23, 1991. On January 22, 1991 the first oil well was lit by the Iraqi soldiers, thus creating the smoke. Also August 2, 1990 is the 76th day from May 19, 1990 when Iraq invaded Kuwait.

I repent to God for not having the courage to share this information with you completely during the conference. May God bless you.
