

# May 19, 1990: Historical Day

Quran teaches us that the retribution is imminent for those people who disregard God's message and reject His messenger. In the March 1990 issue of *Submitters Perspective*, the Messenger of the Covenant had a Quranic prophecy that the retribution for the Arabs is near. The following is the exact quotation from that issue:

As prophesied in 44:9-15:

- \* A massive asteroid will hit somewhere in the Middle East.
- \* The resulting heat will burn living organisms within a 100 mile radius.
- \* Total devastation will envelope the Arab world, main opponents of God, His miracle, and His Messenger of the Covenant (9:97, 3:81, 33:7).
- \* The Quranic prophecy in 44:10-15 will come to pass: A giant dust cloud will envelope the whole world and obscure the sun for a few months.
- \* In fulfillment of 17:92, the Arabs will mock and ridicule this prophecy.
- \* When will this happen? I do not know when; but I have a strong feeling that this will take place before the end of 1990.

Numerous facts from Quran and the research based on Quran's 19-based mathematical code are pointing out to the date May 19, 1990 as the day of retribution that the Messenger of the Covenant warned about. The following is only a summary of these findings:

1.  $5 + 19 + 1990 = 2014$  (19 x 106) Solar date  
 $10 + 24 + 1410 = 1444$  (19 x 19 x 4) Lunar equivalent
2. The difference between the above totals (2014-1444) is 570 (19x30). This is the same difference between the solar and lunar years for the end of the world (2280-1710).
3. There are 109 days between January 31, 1990 and May 19, 1990, including both days. The number 109, a prime number like 19, has direct link to these dates. If we write 1 31 1990 followed by 109, the resulting number is divisible by 19:  
 $1\ 31\ 1990\ 109 = 19 \times 69052111$   
 If we write the gematrical values of Rashad Khalifa followed by 109, the resulting number is also divisible by 19:  
 $505\ 725\ 109 = 19 \times 26617111$
4. If we write the dates of the above 109 days side by side, we get a long number of 727 digits. This number which is demonstrated below is also divisible by 19:  
 $1\ 31\ 1990\ 2\ 1\ 1990\ 2\ 2\ 1990\ 2\ 3\ 1990\ \dots\ 5\ 18\ 1990\ 5\ 19\ 1990$   
 Lunar dates also give a divisible number if we start the number with 1 31 1990 as follows:  
 $1\ 31\ 1990\ 7\ 5\ 1410\ 7\ 6\ 1410\ \dots\ 10\ 23\ 1410\ 10\ 24\ 1410$
5. The 109 days from 1 31 1990 to 5 19 1990 adds up uniquely in the following manner to give a number multiple of 19:

# of day	the date	combined number
1	1 31 1990	11311990
2	2 1 1990	2211990
3	2 2 1990	3221990
109	5 19 1990	<u>1095191990</u> 44017696910 (19 x 2316720890)

6. When the first and the second column in the above table are switched and the process of adding is repeated, the resultant number is also multiple of 19:

the date	# of day	combined number
1 31 1990	1	13119901
2 1 1990	2	2119902
2 2 1990	3	2219903
5 19 1990	109	<u>5191990109</u> 72796695095 (19x19x201652895)

7. When the solar dates in the above table are replaced by the lunar dates and the process of adding is repeated, the resultant number is also multiple of 19:

the date	# of day	combined number
7 5 1410	1	7514101
7 6 1410	2	7614102
7 7 1410	3	7714103
10 24 1410	109	<u>10241410109</u> 157909022895 (19 x 831100125)

8. Chapter 10 which contains the verse of retribution for lunar calendar date is the only chapter in Quran with 109 verses. The last verse in this chapter says: "*Follow what is revealed to you, and be patient until God issues His judgment; He is the best judge*" (10:109).

9. There are 18 chapters which have 109 or more verses. The total of the chapter numbers is 247 (19x13). The total number of verses in these chapters is 2746, where  $2 + 7 + 4 + 6 = 19$ .

10. The name of Chapter 109 is "*The Disbelievers*". Immediately after this chapter is the chapter entitled "*Triumph*".

11. There are 57 (19x3) verses in Quran in which the chapter and verse number add up to 109, such as 2:107. One of these verses is Verse 74:35 which describes Quran's 19-based mathematical composition: "*This is one of the great miracles*".

12. The Quranic verses 5:19 and 10:24, which correspond to the solar and lunar dates explained above, are highly correlated, both contentwise and mathematically. For example, 5:19 mentions the coming of a warner. 10:24 mentions the coming of a judgment (retribution). The total number of verses between the two verses including the Basmalaha is 703 (19x37).

13. The sum of the chapter and verse numbers involved between 5:19 and 10:24 is 53428 (19x19x148). The number 53428 is unique in that it is also a multiple of 703 (see fact #12) and a multiple of 1444 (see fact #1).

14. If we take the verse and the chapter numbers between Verses 5:19 and 10:24 place them next to each other, we get a long number of 1577 (19x83) digits. This long number is also divisible by 19.

15. The total gematrical values of Verses 5:19 and 10:24 are 7257 and 16645, respectively. The sum of these numbers is 23902 (19x1258).

16. The number of occurrences of the word "God" between and including Verses 5:19 and 10:24 is 532 (19x28). Cont.

17. The number of verses from Verse 10:24 to the end of Chapter 109 (Disbelievers) is 4826 (19 x 254).

18. The number of occurrence of the word "God" from Verse 10:24 to the end of Quran is 1410. This confirms the lunar date 10 24 1410.

19. The Quranic prophecy about the "Smoke" is in Verse 44:10. This verse says *"Therefore, watch for the day when the sky brings a profound smoke."*

44 + 10 = 54 The Messenger of the Covenant's age

44 10 109 = 19 x 23211

5 19 1990 10 24 1410 44 10 = 19 x 273262636969163390

10 24 1410 5 19 1990 44 10 = 19 x 19 x 2836955822492810

20. Take the portion of Quran from the beginning up to Verse 44:10. Write down the chapter number and each individual verse number for the 44 chapters as follows:

1 1234567 2 123...286 .....44 12345678910  
Chapter 1 Chapter 2 Chapter 44, up to verse 10

Designate this long number with [\*]. Then, we have the following relationships:

5 19 1990 [\*] 10 24 1410 is a multiple of 19.

10 24 1410 [\*] is a multiple of 19. Also, the sum of the digits of this long number adds up to 37810 (19 x 1990).

21. Verse 17:92 says *"Or unless you cause masses from the sky to fall on us, as you claimed..."* This verse has a connection with the "Smoke":

17 92 44 10 = 19 x 273390

1 + 7 + 9 + 2 = 19

17 + 92 = 109

22. Verse 34:46 indicates that the retribution will come to the rejectors of the message after the departure of the messenger: *"Say, 'I admonish you to do one thing: You shall devote yourselves to God, in pairs or as individuals, then reflect. Your friend is not crazy. He is a profound warner to you, just before the advent of a terrible retribution.'"* This verse is connected with Dr. Rashad Khalifa and the "Smoke":

505 725 34 46 = 19 x 2661711234

1 31 1990 34 46 = 19 x 690521234

44 10 34 46 = 19 x 2321234

23. Verse 22:25 connects the retribution to the Arabs: *"Surely, those who disbelieve and repulse from the path of God, and from the Sacred Mosque that we designated for all the people - be they natives, or merely visiting it - and seek to corrupt it, we will afflict them with painful retribution."*

22 25 109 = 19 x 11711

5 19 22 25 = 19 x 273275

17 92 22 25 = 19 x 9475

24. Is God planning to use the so called comet "Austin" in the retribution process? "Austin" written in Arabic has four letters with gematrical values of 1, 60, 400 and 50. These numbers written side by side have a direct relationship with solar and lunar dates mentioned above:

1 60 400 50 5 19 1990 = 19 x 8442131852210

10 24 1410 1 60 400 50 = 19 x 53902158738950

25. Will the center of the retribution be the city of Medina, a place of idol worship for Mohamedans? Medina written in Arabic has five letters with gematrical values of 40, 4, 10, 50 and 5. Based on these gematrical values, there are the following relationships:

4 + 0 + 4 + 1 + 0 + 5 + 0 + 5 = 19

40 + 4 + 10 + 50 + 5 = 109

As stated earlier, 109 is the number of days between 1 31 1990 and 5 19 1990.

There are many other findings that are supportive of the date 5 19 1990 as the day of retribution. However, regardless of what happens on that date, all the signs from God are pointing out that it will be a day of victory for the sincere believers who uphold Quran as the only source of religious guidance.

## WHY 19!

For the first time in the history, we have scripture with built-in proof of divine authorship — a superhuman mathematical composition based on the number "19".

The number 19 can be looked upon as the Almighty Creator's signature on everything He created. For example, the human body contains 209 bones (19x11). The sun, the moon, and the earth line up in the same relative position once every 19 years.

We now understand that the universal coding of God's creations with the number 19 rests in the fact that it is the gematrical value of the word "ONE" in all scriptural languages — Aramaic, Hebrew, and Arabic. For example, the Hebrew word for "ONE" is "VAHD" (pronounced V-AHAD). In Arabic, the word for "ONE" is "WAHD" (pronounced WAAHEED):

Letter		Gematrical Value
Hebrew	Arabic	
V	W	6
A	A	1
H	H	8
D	D	4
		<hr/> 19

The number 19, therefore, proclaims the First Commandment in all the scriptures: **There is only ONE God.**
